13 October 2009

Dear Parents

A company, Software4Students, which is working with the software company Microsoft, has recently contacted me. They are offering a programme that allows all of our students and parents discounts on software for their home PCs.

While the school does not recommend any particular product or supplier, and while I fully recognise what materials you buy for your children is entirely your own decision, I thought I should make you aware of this programme. It would be really helpful if you could give the schools name when registering so that the suppliers know where the orders came from.

The Software4Students programme allows our students and parents of Kingsbridge Community College to receive promotional pricing on leading software titles with savings of up to 90% off. The current offer is for Microsoft Office 2007 which includes Word, Excel, PowerPoint etc. for £35. Also, it allows our students to replicate the school desktop profile on their home PC.

If you are interested in availing yourself of this programme or for further information on the programme, you can logon to [www.software4students.co.uk](http://www.software4students.co.uk) and register your details. Please remember to cite Kingsbridge Community College when registering.

The deadline for this offer is 31<sup>st</sup> October 2009.

Yours sincerely,

**ADRIAN GREEN**  
**Assistant Principal - Learning**
